FREQUENTLY ASKED QUESTIONS:

Q: Do you have an exhaustive list of all acceptable supplies and equipment?

A: No. It's important not to overthink what you place in the bin as all donated items will be carefully assessed, tested and sorted by Project C.U.R.E. upon receipt.

Q: Do you accept expired items?

A: Yes, expired gloves, tubing and syringes are acceptable, if in original packaging and not compromised. Ingestible items—

medicines, IV bags, and nutritional supplements—must have 1 year left before expiring.

Q: Do you accept items from Isolation Areas?

A: Yes, these items should be placed in a separate bag before depositing in our collection bin.

Q: Do you accept biomedical supplies and equipment?

A: Yes, in working condition! Our mission is to equip hospitals and clinics in developing nations with everything they need to provide care and save lives. Please contact us when these items become available.
