A C.U.R.E. Clinics nurse practitioner with a young patient, Suriname, 2024

One garage. One clinic. One container at a time.

In 1987, Dr. James “Jim” Jackson traveled to Brazil as a consultant and toured a small clinic in Campinas. He saw doctors and nurses without the tools to do their jobs, and patients dying of conditions that could have been treated.

Back home in Evergreen, Colorado, Jim and his wife, AnnaMarie, began collecting donated medical supplies from friends and neighbors. They filled their garage, paid to ship the first load to Brazil, and laid the foundation of Project C.U.R.E.

Today, under the leadership of Jim’s son, Dr. Douglas Jackson, Project C.U.R.E. runs an international headquarters in Colorado and seven distribution centers across the United States, powered by a small staff and thousands of volunteers.

> **Where you live shouldn’t determine whether you live.**

Where it started: Dr. Jim Jackson loading donated supplies at home in the Colorado mountains.

1987

About $250,000 of supplies collected in one month in an Evergreen, Colorado garage, and shipped to Brazil.

$1 billion+

In medical supplies and equipment delivered since 2000.

Last year

250 containers to 40 countries from seven distribution centers.

> “You get to rewrite the future. I mean, what could be better than that?
>
> **Dr. Douglas Jackson** · President & CEO, Project C.U.R.E.

By invitation. By assessment. For the long run.

Project C.U.R.E. works only where it is invited, and every shipment is built around what a specific hospital or clinic actually needs. The goal is to strengthen local healthcare professionals, not replace them, and to stand with partners until the relief is no longer needed.

1

Needs Assessment

A Project C.U.R.E. representative travels to the facility and meets with administrators, physicians and nurses to identify exactly what is needed.

2

Custom Delivery

Volunteers sort, pack and load a semi-truck-sized ocean container with the supplies and equipment that facility asked for.

3

Impact Evaluation

About six months after delivery, the facility reports how the container changed its care. Larger projects get an on-site Outcomes Assessment.

Oromia, Ethiopia: community members welcome Project C.U.R.E.

Delivered: tagged equipment arrives in Ukraine

In use: surgical team at ABC Mission Hospital

Project C.U.R.E. is proud to have never lost a container in over 30 years of operation.

04 · OUR PROGRAMS

Six ways we deliver health & hope

Volunteers pack birthing kits, Denver, 2026

MEDICAL SHIPMENTS

C.U.R.E. Cargo

Semi-truck-sized ocean containers of customized medical supplies and equipment for hospitals and clinics. Last year: 250 containers, $82.7M in supplies, 363 facilities in 40 countries.

MEDICAL MISSION TRIPS

C.U.R.E. Clinics

Medical professionals travel with Project C.U.R.E. to work alongside local doctors and nurses, diagnosing and treating patients. Last year: 4,241 patients seen on 9 trips to 7 countries.

INTERNATIONAL MEDICAL TRAINING

C.U.R.E. College

Training for local providers in safe childbirth, newborn care, cervical cancer screening and more. Last year: 86 healthcare workers trained.

MEDICAL SUPPLY KITS

C.U.R.E. Kits

About 50 pounds of essential consumable supplies, packed to travel as checked luggage with providers on medical mission trips.

FIRST AID FOR FAMILIES

Kits for Kids

Bags of bandages, antibiotic ointment, fever reducer and soap, developed with pediatricians and nurses and packed by volunteer groups of all ages.

VOLUNTEERS

C.U.R.E. Corps

The volunteers who collect, sort, inspect and load every donation. Last year: 15,104 volunteers gave 217,139 hours.

One container can reach tens of thousands of lives.

30K
people reached per container, on average

7.5M
people served last year

363
hospitals and clinics equipped last year

$1B+
in medical relief delivered since 2000

People served is estimated at 30,000 per container from each receiving community's catchment area.

Washington, D.C.

Global reach
138 countries served since 1987; 40 last year

Recent response

Caritas Venezuela receives medical relief, 2026

Venezuela, 2026. After earthquakes struck Caracas, Project C.U.R.E. chartered a Boeing 737 cargo jet of medical relief.

Democratic Republic of Congo. Protective equipment and supplies for frontline health workers responding to Ebola.

Jamaica. Rapid relief for communities hit by Hurricane Melissa.

RECOGNITION

Ranked by Forbes among the "20 Most Efficient Large U.S. Charities" · Candid Platinum Seal of Transparency · Charity Navigator 4-Star Charity

06 · WHAT WE BELIEVE

OUR MISSION

Project C.U.R.E. identifies, solicits, collects, sorts and delivers medical supplies and services according to the imperative needs of the world.

OUR VALUES

Credibility & Integrity. We keep the promises we make.

Creativity & Ingenuity. We pioneer new ways to meet needs.

Excellence in Service. We do our best work for everyone we serve.

Information & Competence. We keep growing our expertise.

Partnership. We work with those who share our vision.

Stewardship. We treat every donation as a gift.

Attitude. We treat others with respect and honor.

BOILERPLATE · ABOUT PROJECT C.U.R.E.

Project C.U.R.E. was founded in 1987 to address the staggering shortage of medical resources around the world. From its beginnings in a Colorado garage, it has become the world's largest distributor of donated medical supplies, equipment and services to doctors and nurses in 138 countries. Last year, its seven U.S. distribution centers shipped 250 containers worth $82.7 million to 40 countries. Ranked by Forbes among the 20 Most Efficient Large U.S. Charities, Project C.U.R.E. is headquartered in Centennial, Colorado. Learn more at projectcure.org.
