We will provide Meds on a request basis only and as available. Due to many customs restrictions, Meds can be difficult to import into certain countries. Prior to requesting you should be certain that you will be allowed to enter the country with the Meds. Most Meds provided will have 3 months of remaining dating. This may be a factor to also consider as some countries today require a minimum of one year of dating to be acceptable.

Meds are provided in general categories and we cannot guarantee that the specific Med you need will be included in the consignment. Meds are sorted by date and packaged by date and category.
