Infant Incubators
Birthing Beds
Operating Room Tables & Lights
Autoclaves (preferably desktop units)
Ventilators
Monitors (ICU, Vital Sign, Fetal, etc.)

WHO IS PROJECT C.U.R.E.?
Since 1987, Project C.U.R.E has been spreading health and hope to under-resourced communities worldwide. As the world's largest distributor of donated medical relief, Project C.U.R.E has touched the lives of patients, families and children in more than 130 countries. Operating six distribution warehouses nationwide (Denver, Phoenix, Chicago, Nashville, Houston, and Philadelphia) allows Project C.U.R.E to ship two to three 40-foot containers weekly with each container holding up to 600 boxes of medical supplies.

WHAT WE CAN DO FOR YOU...
At Project C.U.R.E. we partner with hospitals, medical manufacturers and wholesale distributors around the country to collect excess medical supplies and retired equipment for beneficial repurposing in the developing world.

After being collected, cleaned, sorted and packed, donated items are delivered to recipient facilities in more than 130 countries that have been personally assessed by a Project C.U.R.E. representative. Once there, these donations empower healthcare providers and elevate the level of diagnosis, treatment, and quality of care they can provide their patients—resulting in a measurable increase in access to medical services, a decrease in suffering and most importantly—lives saved.

Partnering with Project C.U.R.E. provides your organization the unique opportunity to align business imperatives, employee engagement and participation in relief efforts. Whether you represent a hospital, medical manufacturer or wholesale distributor, working with Project C.U.R.E. can help you combine your business and social objectives.

Project C.U.R.E. Procurement... meeting a world of need.
